

Report from Dr. Stephanie Dye
Recipient of the Dr. Howard L. Pranicoff Leadership/Educational Memorial Scholarship

April 17, 2025

I had such a memorable experience attending Dentists Day on the Hill! I joined three other dentists from the Alachua County Dental Association and many dentists from across the state of Florida at the Capitol in Tallahassee to join efforts with the Florida Dental Association in advocating for legislation that supports dentists and our community.

We met with multiple senators and representatives from our district to discuss important topics such as community water fluoridation, funding for Mission of Mercy, Medicaid patients and veterans, the student loan repayment program and the dental therapist bill.

This opportunity allowed me to have my voice heard to help shape the future of this profession that I love so much. As they say at DDOH, "If you don't take a seat at the table, you might be on the menu!"

I encourage dentists in all stages of their career to join us at the Capitol for DDOH next year on January 27, 2026, so that your voice can be heard too.
